

KRMEEROVO STATE MEDICAL UNIVERSITY

ABOUT

Kemerovo State University (KemSU) is the scientific hub of Kemerovo Oblast. Located in its administrative and economic center, Kemerovo city, the institute grew into a university from the Kemerovo Pedagogical Institute in 1973. Today, it has five branches in the Siberian region and one in Ulaanbaatar. Known for its state-of-the-art infrastructure, the university was among the top 10 flagship universities in Russia in 2018.

KemSU is an important research center among the top Russian universities and boasts 20 modern research laboratories. It receives research and innovation funding from the Ministry of Science and Higher Education and international foundations. The university also carries the reputation of ensuring fruitful internship opportunities and fulfilling job placements post-study. It was placed among the top 500 universities in Europe and Central Asia's emerging universities by QS World University Rankings. The University's Institute of Medicine started in 2022 and is known for its modern laboratories, highly qualified faculty, and pedagogical innovation. With its well-equipped classrooms, simulation labs, and a globally relevant curriculum, the institute is already showing promise.

The faculty at the Institute of Medicine of KemSU is focussing on hands-on experience and practical learning as part of the clinical training. Students get the opportunity to learn and practice using equipment from the world's leading manufacturers.

KemSU brings a unique opportunity to fulfill Indian students' dream of studying MBBS in Russia. Like most universities in Russia, the KemSU charges reasonably for its medical programs. World-class instruction, a vibrant campus life, and valuable internships make studying medicine at Kemerovo uniquely rewarding.

STUDENT LIFE AT KRMEROVO STATE MEDICAL UNIVERSITY

The university ensures that international students' stay is enriching and vibrant beyond the classroom. It facilitates Indian students' assimilation into a new society and culture through various events and activities.

Two festivals organized by the university are very popular among the students. The First Snow Festival is held in autumn for first-year students. The Student Spring Festival aims to promote cultural exchange and interactions in the diverse student community of KemSU.

Various societies, clubs, and studios contribute to students' overall growth. KemSU has studios for music, dance, acrobatics, and theatre, a sports league, and an academic choir. KemSU's campus is divided into two clusters. The main cluster lies in the city's heart, and another campus lies next to Stroiteley Boulevard. A few attractions of the KemSU campus include a sprawling sports complex, a media centre, and a museum dedicated to the history, ethnography, and ecology of Siberia.

WHY STUDY AT KRMEROVO STATE MEDICAL UNIVERSITY , RUSSIA?

Indian students have many reasons to choose Kemerovo State University for their study-abroad program in medicine.
