

# URAL STATE MEDICAL UNIVERSITY

## ABOUT

Founded in 1930, the Ural State Medical University (USMU) stands as a cornerstone of medical education in Yekaterinburg, located in the vibrant Ural region of Russia. With a rich history spanning nearly a century, USMU has emerged as a distinguished institution renowned for its commitment to excellence in medical training and research.

The institute made its humble beginning in 1930 with one faculty and 100 students, presently, the university is the home of more than 6,000 students from all over the world. It was awarded the status of Academy in 1995 before elevating to a full-scale university in 2013. A public university that receives funding and direction from the Ministry of Health, USMU, is one of the leading universities for medical education in Russia.

Ural State Medical University is located in Yekaterinburg and is the only university in Sverdlovsk Oblast that produces doctors. It is a public university partly overseen by the Ministry of Health. It was amongst the top 10 medical schools in Russia in 2017-18. Besides being a promising medical education and research center, the university also carries a proud past. It played a crucial role during the Great Patriotic War.

State-of-the-art infrastructure and globally relevant syllabi make USMU an attractive choice for international students. It is affiliated with Russia's Ministry of Science and Higher Education and is recognized by the National Medical Commission of India (erstwhile MCI).

Ural State Medical University is emerging as a smart choice for Indian students willing to pursue MBBS in Russia. It can be a financially viable option since the tuition fees and living expenses are less. World-class curriculum and futuristic pedagogy prepare students for challenges in their post-study life as practitioners

## STUDENT LIFE AT URAL STATE MEDICAL UNIVERSITY

The university organizes department visits to familiarize international students with the structure of the university. Various cultural and educational excursions enable students to understand Russian culture and society. Activities like Student's Day, Sports Day, and local festival celebrations allow the students to express themselves outside the classroom.

To promote holistic learning and ensure personality development, international students are encouraged to participate in activities beyond the classroom. The university has an International Training and Adaptation Centre. It assists international students in adapting to their new environment and way of life through extra-curricular activities. Students are encouraged to participate in the vibrant university life through various clubs and societies. This center also provides Russian language tutors to international students.
